

Notes 1031-1040

1031 We must be precise. We are not finished. We are in process. That "so it was, so it is and so it will be..." is not for us.

1032 If so, it is better now and will continue to improve in the future. That is what we are here for. The fact that that we have some dogmas in the RedGFU is not going to change things.

1033 Fundamentalists have that luxury, we do not. Like often attracts like. We are here to serve life. If anyone knows of a better option, they can propose it.

1034 Speaking of facts, that is what minerals, vegetables, animals and Human Beings are for. Everything is related to everything and in essence everything is the same. The difference is in the degree of organization.

1035 God is pure Potential. If someone requires something more tangible, he can turn to Him with some form and existence, according to the degree of organization needed. In cases of high organization, he may resort to Him as Being, or center.

**O Maker, hear me!
Eternal Maker
Infinite Maker
Single Maker
Strength, Justice, Love
Help me!**

1036 Everything that moves around a center has Life, from a Sun to a Quantum. Outwardly, it is supposed to be emptiness full of OM, inwardly it is emptiness full of possibilities. Between both emptinesses is the Human Being. Its essence is Being.

1037 Its presence is limited to a form in space within a cycle in time, by centripetal and centrifugal spirality. Sacrifice consists in limiting the Self to experience the spatial and temporal by contrast and comparison, and to develop Soul and Consciousness.

**You who are flame
You who are fire
You who are Light
Protect me!**

1038 The flame is the plastic presence of the Self, the fire is the purifying element, the Light is that which maintains the contact between the Self and the Human. The experience is concentrated in the Soul and the Consciousness. This is stated in the Fourth Seal of the MSHM for the New Age as a key to the teaching of the MSMA.

**You, Spiritual and eternal Substance
Perfect being
No beginning, no middle and no end
That eternally**

It is making itself

**You, Sublime Architect
That by the effect of your will
You make the whole Universe out of nothing
You, axis and pole of the Cosmos
Infinite, eternal, uncreated
You, unstoppable force
Of Life and Intelligence**

1039 What follows requires courage. It should only be attempted when philosophical and religious means have been exhausted, as is the case with Initiates in the Sacred and the Real:

**I am you
I see you everywhere
I feel you everywhere**

**Your Word is harmony
Of the worlds and the heavens**

**You are life
You are death
You are the void
You are the full
You are the darkness
You are the light
You are the silence
You are the thunder**

**You are the environment and the inside
The center and the periphery
You envelop the infinite
And infinity is full of You
You embrace and you contain everything**

**You are the whole that is ONE
O Demiurge!
Oh wonderful Silence!**

1040 This is the greatest affirmation of Unity within Diversity, of universality, that a Real Initiate can give. It is the acceptance of his destiny in the Service to Life as a means to answer to himself the basic questions of his existence. Whoever does not feel capable of doing so must place himself in a philosophical or religious group according to his traditions or preferences. It is useless to speak of Universal Fraternity before being sure of what is affirmed here.
